Starving in the Midst of Plenty

Acid-Stomach Steals Strength and
Good Feelings From Millions

One of the worst features of acid-stomach is that very often it literally starves its victims in the midst of plenty. And the strange thing about it is that the people with acid-stomachs seldom know what their trouble really is.

No matter how good or wholesome the food may be, or how much they eat, they do not gain in strength. This is clearly explained by the fact that an acid-stomach cannot properly digest food. Instead of healthy, normal digestion, the excess acid causes the food to sour and ferment. Then when this mass of sour, fermented food, charged with excess acid, passes into the intestines, it becomes the breeding ground for all kinds of germs, which in turn are absorbed into the blood and in this way throughout the entire system it is exactly why it is thousands of people eat up on eating and yet living in the midst of acid-stomachs make it possible for them to get out of nourishment out. And it doesn't take long for nourishment to show in a weakened, emaciated body.

"My stomach doesn't seem to be true because of acid-stomach do not stomach pains. Then millions who do suffer from acid-stomachs—headache, twinges, gout, lumbar pain, the heart and in the never dream that an acid-stomach is the real cause of the trouble.

Naturally, the sensible thing to do is to strike right at the very cause of this trouble and clean the excess acid out of the stomach. There is a quick, easy way to do this. A wonderful new remedy quickly removes the excess acid without the slightest discomfort. It is EATONIC. Made in the form of tablets—they are good to eat—just like a bit of candy. They literally absorb the injurious excess acid and carry it away through the intestines. They also drive the blast out of the body—in fact you can fairly feel it work. Make a test of EATONIC in your own case today. Get a big box of EATONIC from your druggist. See for yourself how surely it brings quick relief in those painful attacks of indigestion, bitter heartburn, belching, disgusting food repeating, that awful bloated, lumpy feeling after eating and other stomach miseries. Banish all your stomach troubles so completely that you forget you have a stomach. Then you can eat what you like and digest your food in comfort without fear of distressing after effects.

If EATONIC does not relieve you, it will not cost you one penny. You can return it to your druggist and get your money back. So if you have the slightest question about your health—If you feel you are not getting all the strength out of your food—if you are not feeling tip-top, ready for your work, full of vim and vigor—do give EATONIC a fair trial this very day and see how much better you will feel.

Tree-Planting Campaign Along Victory Highway in Texas Is a Step in the Right Direction.

People in other parts of the United States should find inspiration in the tree-planting campaign undertaken by the residents of Bell county, Texas. These thoughtful citizens have subscribed liberally to a fund which is being used to beautify the Temple-Belton road, or Victory highway. At every interval of thirty feet a tree is planted on either side of the road, numbered, and dedicated by the person who plants it to some Bell county soldier who fought in the great war, while a label on the tree gives the name and title of this soldier. With each tree are planted also two pecan nuts and two walnuts. If these produce seedlings, the owner of the tree may take his choice of one of these seedlings or the original tree. Here is a combination of patriotism, estheticism, and utility. The Victory highway will be useful as well as ornamental for generations to come. It will be sought by the tourist of the future not only for its beautiful shade, but out of sheer respect for the good taste and good sense of the people who designed and developed it.—Christian Science Monitor.

ARCHITECT HAS DONE WELL

Somewhat Difficult Task of Combining House and Garage Accomplished With Good Results.

Many attempts to incorporate a garage in a modern house have left much to be desired in the way of architectural effect. Such a dwelling as is shown in the accompanying illustration is a Lakeside Cottage in which a garage has been incorporated in a way that is unusually pleasing. The long glass doors suggest a conservatory or sun parlor, rather than a garage.

tration, therefore, attracts favorable interest because of the architect's happy solution of his problem. Artistic doors, made like French windows, afford ingress to the garage at the left of the dwelling entrance, the exterior appearance suggesting a sun parlor rather than a motor car shelter.—Popular Mechanics Magazine.

Home Gardens in 1919.

The need for home production of perishables by means of the garden, it is believed, will continue. Because of the relatively high prices which obtain for practically all foodstuffs, those with sufficient land and spare time should find it profitable to maintain home gardens. Experience shows that very satisfactory returns to the grower, in the form of vegetable products, are obtained when gardening is intelligently and efficiently carried on. The necessity of transporting such products from distant points also is obviated. The department urges those who intend to maintain home gardens to plan to meet the needs of the family rather than to produce crops for sale on the market.—United States Department of Agriculture.

Two States Doing Well.

In Fort Wayne, Ind., the department of public works has purchased 150 trees for a memorial park and Forester Jaenicke informs the association that each tree is to be marked with a plate six inches long and four inches wide. Governor Goodrich of Indiana, and Richard Lieber of the forestry department are working out plans for the tree planting by counties. In Alabama John H. Wallace, Jr., the former commissioner, has organized the state by appointing county committees.

Another Nature Mistake.

"I have my back to the wall," explained the Erratic Thinker. "Not for the same reason that the Huns are fighting in that attitude, but because there is a place on my back, slightly lower than betwixt my shoulder blades, as there is on the back of every normal human being, that cannot be scratched without artificial aid. This is one of the very few grave mistakes of Nature."—Kansas City Star.

Studying Ideas of Beauty.

Women at the Michigan Agricultural college are taking courses dealing with the methods of beautifying the farm home. A study of ornamental trees, shrubs and perennials is made, as well as the principles of grouping, arrangement, use of masses, etc.

FIVE YEARS OF SUFFERING

Eupora Lady Broke Down and Was Most Miserable, But Cardui Brought Relief and Now She Is Well.

Eupora, Miss.—Mrs. B. E. Tedder, recently spoke as follows: "About five years ago . . . I broke down and took to my bed.

What I suffered no one knew, I was in so much pain from my knees to my waist, cramping and drawing, until I thought I would certainly die.

I grew so weak I couldn't eat, and so dizzy and faint and every time I stood on my feet I had the most miserable and heavy feeling in the lower part of my body.

I began on Cardui. It strengthened me after a few doses and diminished the . . . after the first bottle. I commenced to feel better. I regained my appetite . . . I took the Cardui right along . . . I am well and strong. That has been four years. I can do all my work and feel fine."

Cardui has been found to be a valuable tonic for women. It is composed of harmless medicinal ingredients, which act in a mild and gentle way on the system and help to build up the body and nerves.

Your druggist sells Cardui. Try it.—Adv.

The Usual Thing.

"Eh-yah! Spring is almost at hand," admitted the landlord of the Petunia tavern. "Those gents over yonder on the sunny side of the court house are engaged in garden talk. They are advising each other as to what vegetables are the most profitable and the surest to yield abundantly, those that are the least affected by dry weather or long wet spells, and those which will soonest produce food for the table."

"Ah! Then there will be a great deal of gardening done this spring?" commented the spectacled guest.

"No. They will do a great deal of talking about doing a great deal of gardening until it is too late to do any gardening this spring, and then reluctantly put it off until next spring."—Kansas City Star.

If You Need a Medicine You Should Have the Best

Have you ever stopped to reason why it is that so many products that are extensively advertised, all at once drop out of sight and are soon forgotten? The reason is plain—the article did not fulfill the promises of the manufacturer. This applies more particularly to a medicine. A medicinal preparation that has real curative value almost sells itself, as like in endless chain system the remedy is recommended by those who have been benefited, to those who are in need of it. A prominent druggist says "Take for example Dr. Kilmer's Swamp-Root, a preparation I have sold for many years and never hesitate to recommend, for in almost every case it shows excellent results, as many of my customers testify. No other kidney remedy has so large a sale."

According to sworn statements and verified testimony of thousands who have used the preparation, the success of Dr. Kilmer's Swamp-Root is due to the fact, so many people claim, that it fulfills almost every wish in overcoming kidney, liver and bladder ailments; corrects urinary troubles and neutralizes the uric acid which causes rheumatism.

You may receive a sample bottle of Swamp-Root by Parcel Post. Address Dr. Kilmer & Co., Binghamton, N. Y., and enclose ten cents; also mention this paper. Large and medium size bottles for sale at all drug stores.—Adv.

In a Fix.

"What are you puzzling over, John?" asked his wife.

"Why, that Mrs. Newrich we gave the St. Bernard pup to writes asking if it should be fed on meat or dog biscuit."

"Well, on biscuit, shouldn't it?"

"Yes, but she spells biscuit with a 'k,' and if I spelled the word right it might hurt her feelings."

"Oh, say meat, then."

"But she spells meat with two 'e's.'"

Back to the Ranks.

At one of the officers' training schools a young candidate for shoulder bars had a company of new men out drilling. After calling some easy squad formations he suddenly yelled for a company maneuver and in executing it threw the men out of formation. After vainly trying to straighten them out he finally shouted: "As you were ten minutes ago." And he wondered why he failed to get his commission.

Triumph Over Necessity.

Manhood begins when we have in any way made truce with Necessity; begins even when we have surrendered to Necessity, as the most part only do; but begin joyfully and hopefully only when we have reconciled ourselves to Necessity; and thus in reality triumphed over it, and felt that in Necessity we are free.—Carlyle (Essays).
